Subject: Hospital-Based Inpatient Detoxification: Updates to ICD-9-CM Diagnosis Lists

Retroactive to dates of admission on and after June 22, 2006, the Health and Recovery Services Administration (HRSA) began using the updated lists of diagnosis codes referenced in this memorandum.

What Changed?

Retroactive to dates of admission on and after June 22, 2006, HRSA has updated the diagnosis codes listed on pages 9 and 10 of HRSA's current *Hospital-Based Inpatient Detoxification Billing Instructions*.

Updates include the addition of three new diagnosis codes for alcohol detoxification and eight new diagnosis codes for drug detoxification. Hospitals must use one or more diagnosis code from the applicable list when billing HRSA for alcohol or drug detoxification services.

Note: This applies to HRSA-approved hospital-based inpatient detoxification providers with provider numbers starting with 36.

Billing Instructions Replacement Pages

**SECTION 3 ALCOHOL/DRUG DETOXIFICATION FOR CLIENTS
DETAINED OR INVOLUNTARILY COMMITTED**

**Description: Protective Detention of Persons Incapacitated by Alcohol or Other
Drugs:**

RCW 70.96A.120 provides for the protective custody and emergency detention of persons who are found to be incapacitated or gravely disabled by alcohol or other drugs in a public place. Providers of services to clients who are (1) detained under the protective custody provisions of RCW 70.96A.120, and (2) are not being judicially committed to further care, must follow the instructions outlined in the Hospital-Based Inpatient Alcohol/Drug Detoxification sections. See Sections 1 and 2, pages 9-11.

Involuntarily Commitment for Chemical Dependency

RCW 70.96A.140 provides for the involuntary commitment (ITA) of persons incapacitated by chemical dependency. When a Petition for Commitment to Chemical Dependency Treatment or a Temporary Order for Treatment is invoked on a client under care in a hospital, there may be a need to hold the client beyond the three- to five-day limitations described on pages 9-11 in these instructions.

Therefore, if a Petition is filed or a Temporary Order for Treatment is invoked, the three-/five-day limitations may be extended up to an additional six days. In this event, DASA will reimburse up to a maximum of nine days for Alcohol ITA Extended Detoxification or eleven days for Drug ITA Extended Detoxification.

Rates are set by applying the allowance RCC (Ratio of Cost-to-Charges) percentage for a given hospital.

Billing: All billings for ITA extended detoxification are to be submitted to:
